Template to Request Canadian Support for Iranians In Collaboration with Elham Goldan

Dear Justin Trudeau,

I am writing to draw your attention to the horrific human rights violations occurring in Iran and to invite Canadian support. Please support human rights by making Canada a refuge for Iranians fleeing the brutal regime. Canada is currently becoming a refuge for regime officials, & family members of those perpetrating the brutal regime.

Additionally, please find justice for the families of PS752 and the families of protesters who lost their lives fighting for their basic human rights, for freedom. Thank you for posing sanctions on some of the IRGC, please designate the IRGC as a terrorist organization.

Thank you for your contributions to social justice.
